Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: Esnaftaucuz

App URL:
https://play.google.com/store/apps/details?id=com.esnaftaucuz.app

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

I engaged users through targeted online communities and social media platforms to ensure a diverse group of testers. Their insights were instrumental in identifying improvements and enhancing the app's overall functionality and user experience, paving the way for a successful launch.

---

2) How easy was it to recruit testers for your app?

Answer: Easy
(You can select your own answer).

---

3) Describe the engagement you received from testers during your closed test

Testers provided valuable feedback on usability, feature enhancements, and overall app performance. Their active participation highlighted the need for

better onboarding and more customization options, which we prioritized to elevate user engagement and satisfaction in future iterations.

---

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Feedback highlighted the need for ASO optimization, dynamic walkthroughs, expanded language support, and a dark mode feature. We collected input through surveys, direct communication, and user interaction, ensuring we addressed all concerns thoroughly and effectively.

---

5) Who is the intended audience for your app?

Esnaftaucuz is designed for users seeking streamlined account management and accessibility through Google registrations. It caters to a tech-savvy audience looking for convenience and efficiency in managing their online services with ease and reliability.

---

6) Describe how your app provides value to the users.

Esnaftaucuz enhances user convenience by allowing seamless registration with Google accounts, reducing barriers to access. It aims to simplify account

management, ensuring that users have a cohesive and enjoyable experience while interacting with various online services.

---

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k
(You can select your own answer).

---

8) What changes did you make to your app based on what you learned during your closed test?

We prioritized implementing a dynamic onboarding walkthrough, optimizing the app description for better ASO, and addressing requests for dark mode and expanded language support. These improvements enhance usability and are expected to drive user retention.

---

9) How did you decide that your app is ready for production?

After rigorous testing and incorporating essential feedback regarding user experience enhancements and feature requests, we confirmed that Esnaftaucuz delivers a reliable, user-focused solution. We are confident it meets production standards for Google Play access.

10) What did you do differently this time?

This time, we committed to thorough ASO practices, gathering extensive feedback from a wider audience. Focus was placed on implementing features that enhance user experience significantly, ensuring that the app meets users' needs and expectations in its final version.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

Best regards,
Testers Community Team
